

At CFD, the health and well-being of our customers and staff is our top priority. We are actively monitoring updates regarding the Coronavirus (COVID-19) and are following precautions and guidelines provided by the CDC and public officials. At this time, CFD remains open to serve all of your needs.

The unprecedented public health shutdown due to COVID-19 is posing serious challenges to small businesses, which in many cases have been forced to cease normal operations, but thinking outside the box can help.

Since your business is vital to your community, please encourage your customers to continue shopping. The most important thing for small businesses is to communicate with your customers - with Facebook, emails or radio/print ads. If you don't have an online platform, you can still make shopping at your store appealing to those who are avoiding big crowds at the large stores. One idea is to implement call-in orders, especially for your regular customers and to make shopping more convenient for those who do not wish to come inside the store, you could do curbside pickup.
